

Testing Center 808-245-8306

The Testing Center offers a quiet environment for testing. We proctor a wide range of academic tests including placement tests, missed exams (with permission) and retakes, distance learning courses from other University of Hawai'i campuses (free) and schools outside the University of Hawai'i system (for a fee). For those interested in credit-by-examination, we offer CLEP and DSST exams.

The Testing Center also administers exams for professional certification or licensure. As an ASE partner, our automotive professionals can keep their certifications up-to-date without flying off-island. As a Pearson VUE Authorized Test Center, we provide more on-island opportunities for students and community members to advance in their careers. Please visit [PearsonVue.com](https://www.pearsonvue.com) for more information about academic and professional exams available on Kaua'i through Pearson VUE's network of testing centers.

Please visit <https://www.kauai.hawaii.edu/testing-center> for more information about services and hours.
