

AMT 129 : Engine Repair

Credits: 7

Class Hours: 14 lecture/lab

Prerequisites: "C" or higher in AMT 100.

Description: This course will cover shop safety, tools and all components found in the modern internal combustion engine. The course is designed to provide students with an understanding of the fundamental operation and construction of internal combustion engines. Instruction will include theory and laboratory (shop) activities in which students will learn how to inspect, service, maintain, diagnose, and repair automobile engine malfunctions. This course includes live work.

Semester Offered: Spring
