CARP 42C: Finishing II

Credits: 8

Class Hours: 16 lecture/lab

Prereq: "C" or higher or concurrent enrollment in CARP 42B.

Semester Offered: Spring (every odd year)

Description: In this course, students will learn how to install various interior products in a home. This includes sheetrock, flooring, interior doors, interior door and window trim, baseboards, and other related finishes. Students will be able to calculate the amount of various products needed to complete a home.
