

CM 270 : Intermediate Event Technology

Credits: 3

Class Hours: 3 lecture

Prerequisites: "C" or higher in CM 170.

Recommended: "C" or higher in ETRO 101.

Description: This course teaches intermediate-level skills required to coordinate and support live events. Working individually and collaboratively, students learn how to set up, safely operate, and store professional sound, lighting, staging, and visual display equipment. In this course, students plan and manage live events from beginning to end. Lessons also include equipment troubleshooting, project management, and risk management.

Semester Offered: Fall, Spring

Designation:

Diversification: Arts – DA
