

SSCI 250 : Environmental Issues

Credits: 3

Class Hours: 3 lecture

Description:

This course is an introduction to integrative social science that focuses on the topics of climate change, sustainability, and resilience. The course texts emphasize the interaction between individuals, social/cultural/economic/political systems, and the environment. Additionally, this course utilizes experiential learning to engage students with place-based, Native Hawaiian practices for caretaking the environment.

Semester Offered: Spring (every odd year)

Designation: Diversification: Social Sciences – DS

Course Student Learning Outcomes (CSLOs):

1. Analyze the multidisciplinary nature of environmental issues.
2. Evaluate diverse human-environment relations.
3. Apply social science approaches to civic engagement experiences.
